

# *Exploring a Topic*

Using one word, explore a topic and photograph a series of 10 images that link.

## Suggestions include:

- Bicycles
- Old Things
- Mirrors
- One (or a number of your choice)
- Store Windows
- Reflections
- Bird's Eye View
- Insert your idea here!

Your task, using a digital camera, is to shoot a minimum of 10 images (of your ONE chosen topic). Do not photograph the same angle & the same object 10 times. Rather, you could however, photograph the same object a variety of times (i.e. bike with a variety of camera angles and compositional techniques). Ensure each image is unique and can 'stand-alone' as a great photograph.

Put your images into google slides, share with tv43446@gotvdsb.ca. Put each image as a separate slide. **Put your best images first.** Email the link to [m.cameron@tvdsb.ca](mailto:m.cameron@tvdsb.ca) and submit this sheet to me.

Image amount	/10
Quality of images (focus, exposure...)	/10
Interesting Angles, Perspectives...	/10
Creativity/Evidence of noticing the things that 'need to be photographed'	/10
Emailed correctly and on time	/10
Total	/50
